

Child Interests Planning

Prime & Specific

These sheets can be used to note down possible ideas for learning and enjoyment related to a topic or interest.

Sometimes, when it is hard to grab and hold the attention of a child, it can be useful to use their own interests, however specific, as a starting point; a way in!

For example if a child/group of children show an interest in 'Mobile Phones', these sheets are for jotting down ideas that could use this interest as a starting point for learning through all the seven areas.

Child Interests Planning
INDIVIDUAL
(possible lines of development)

Name: Harry Age: 5

PSED
Harry to use a phone/camera to take pictures of his favourite items in the classroom.

C & L
