Visual Timetable Cards (A6 size)

These cards can be used to build a setting/classroom timetable for a group of children. (100 cards included!)

The cards are designed to be cut & laminated and displayed in time order using Velcro or Blue Tac in a childcare/teaching setting such as a school classroom, nursery/preschool room or childminding setting.

We have created a wide variety of cards but have also included four blank templates at the end of the pack for you to create your own.

We hope these cards are helpful!
