Nurse

I'm a nurse.

I care for people who are sick or injured in a hospital or in the community.

I work closely with doctors to help people get better as quickly as possible.

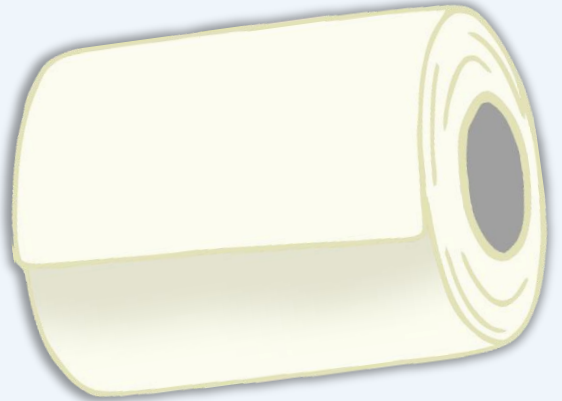

I also give important advice about staying healthy!

I use a thermometer to check a patient's temperature.

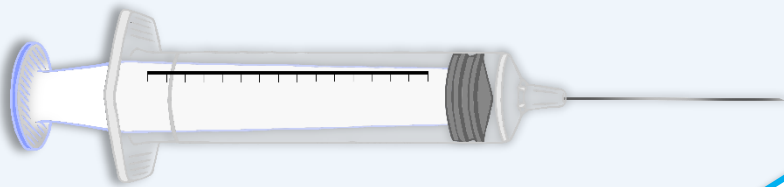

Nurse

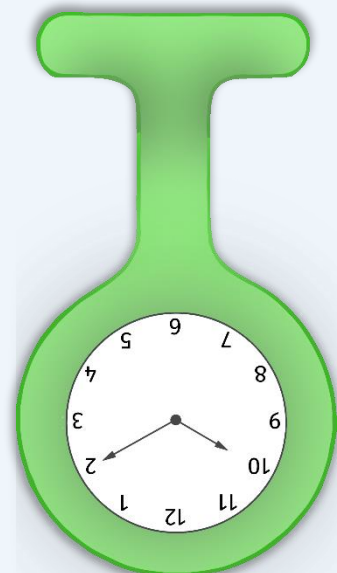

If someone is injured,
I use a bandage to
dress their wound.

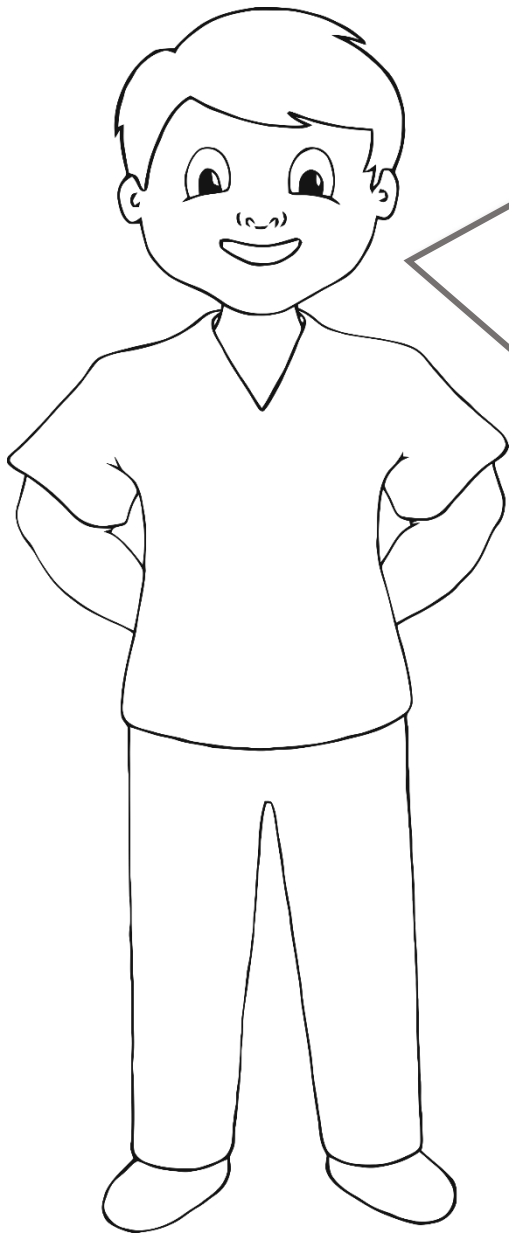

I use a syringe to
give important
medicines.

I use an upside-down job
watch so I can see the
time without needing a
watch on my wrist.
