# Optometrist

I'm an **optometrist**.  
I check whether  
someone needs  
glasses by asking  
them to read letters  
on a chart.

I check which glasses  
will help them see  
clearly and then they  
choose the style they  
like.

I use an  
ophthalmoscope to  
look closely into a  
person's eyes to see if  
they are healthy.

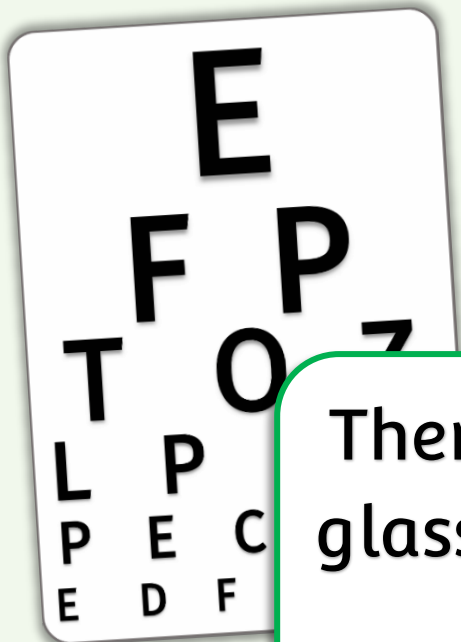

# Optometrist

If someone has tired or itchy eyes, I might give them eye drops.

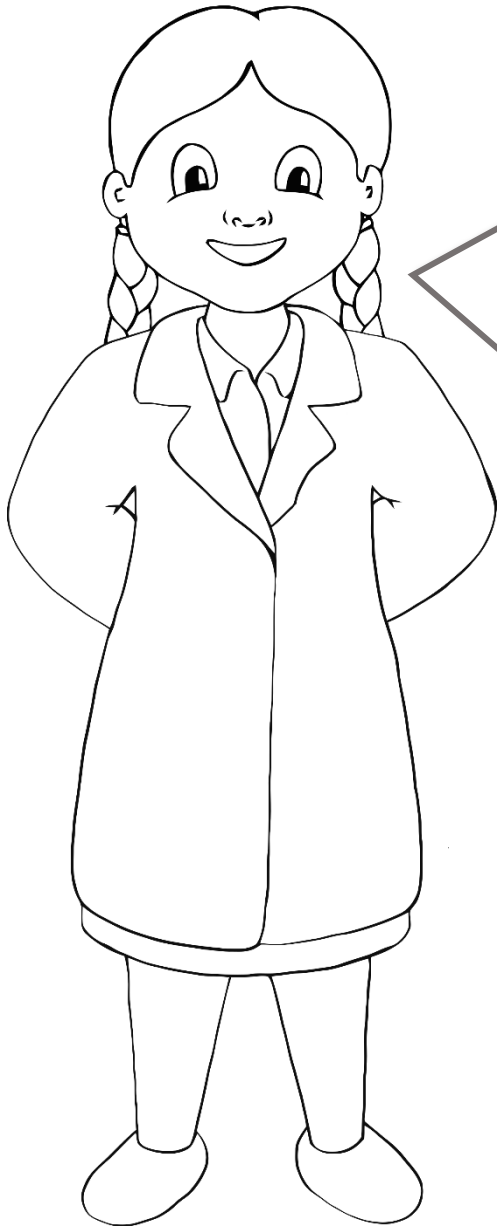

The eye chart has letters on that get smaller and smaller.

There are lots of glasses to choose from.
