

Risk – Benefit Assessment Forms

These forms can be used to note the risks and benefits for activities that take place within a setting or on trips/days out.

As can be seen in the example below, there is also a section to think about how the children might be encouraged to think and talk about the risks.

p2 – Colour version

p3 – BW version

Risk – Benefit Assessment Area:

Setting: Prepared by: Date:

Activity / Hazard	Risks	Benefits	Control / Elimination of Risk	By whom?	Assessment of Risk in Children's voice
Contact with mud / soil	Ingestion of soil.	Using natural malleable material. Normal sensory experience. Exposure to beneficial bacteria to build a healthy immune system.	Clear hand washing facilities during and after activity. Build good handwashing routines. Children reminded about not eating the mud/soil.	Staff	"We don't <i>really</i> eat the mud! Yuck!"
